

Quality and Food Safety Policy

The management of **Taghleef Industries SLU** wants to formally express with this statement, the quality, food safety and environmental policy established for this company.

Taghleef Industries SLU is dedicated to the design, manufacturing and marketing of BOPP films for graphic arts and flexible packaging since 1988.

The purpose and commitment of **Taghleef Industries SLU** management is: "to produce safe products that comply with the regulations and in accordance with the specified quality, being liable for our products to our customers, creating competitive, innovative and sustainable solutions".

Our intention:

- ✚ Guarantee the manufacture and continuous improvement of the food quality and safety system, manufacturing safe products and services in accordance with the specifications set in every moment, so that they meet the requirements of our customers and are in accordance with the specifications of quality, food safety, applicable legal and regulatory requirements.
- ✚ Perform a hazard, risk and opportunity analysis approach in each process and product within the organization.
- ✚ Implement a culture of safety and product quality, striving in improving transparency and consistency in all phases of the product, both food and non-food.
- ✚ Face the problems and minimize the risk that they occur by establishing corrective and preventive actions, with greater efficiency in operation and continuous improvement of processes and products, establishing microbiological environmental monitoring programs. Continuous improvement will be identified, implemented and documented.
- ✚ Commit and involve all the employees of Taghleef Industries SLU. This is achieved with the proper application of the documentation that integrates the systems, such as: guidelines, procedures, instructions, standards, etc.
- ✚ Set annually clear quality and food safety standards. Review these standards, plans and management systems to ensure their continued consistency, continuous improvement, adequacy and effectiveness. The need for changes in these management systems will also be evaluated, in order to adapt them to the planned objectives, preventing product fraud.
- ✚ Continuously training all staff is a permanent concern of the management of Taghleef Industries SLU. For which the necessary human and material resources will be provided in every moment and effective communication to implement and improve processes and products.
- ✚ Ensure customer focus, leadership, commitment to people, process approach, continuous improvement and make decisions based on evidences.
- ✚ The authority conferred on the production manager and his decisions regarding quality, food safety and the environment will be respected by all employees of the company.
